**Meeting opened:** 6:30 by President Larry Boone

**Members in attendance:** 16

**Guest:** Tim Harrison

**Secretary Report:** Minutes read and approved from previous meeting

**Treasurer Report:** Read by Larry and approved \$44,295.21 combined balance

**New Applicants:** Tim Harrison dues and application submitted and voted in.

**Old Business:** The building permit for the shelter is in review albeit late. As we discussed, the contractor pulling our permit didn't immediately submit the application after he picked up the application and drawings here several weeks ago. Anyway, it has now been submitted for over a week and he paid for an expedited review. Lots of back story but it's just not worth going into. Please remind everyone that the building manufacture will move our project to the top of their list once the permit is granted. We'll have to move fast at that point.

Discussion regarding status of shirts/hats. Ron will post details on Larks Yahoo group

**New Business:** Joe Stout explained usage of Larks Yahoo groups. Dave Green suggested old bulletin board and last of old flight stations be removed from field. Motion made and carried to do so. Dave also noted that new flight stations should be given a second coat of preservative. Bill Adkins to supply a gallon of sealer. Discussion regarding website. Ray asked for club input as to what should be included on website. Pictures etc. can be sent to Ray at [info@larksrcclub.com](mailto:info@larksrcclub.com) George Green may have helicopters for sale. Bill Adkins gave a negative review of construction article recently listed in AMA Magazine. Question as to what became of the bench at the field. It is believed that it belongs to Dave Clutts.
